Subject Re: Community Environmental Data

Thanks David for the link.

Status:

We have requested a Level 3 data package and other information for the POCIS samples from Anatek Labs at the request of Brian Boling, that might take a couple weeks.

Bobbi will send you the POCIS QAPP.

The air sampling package is nearly ready.

Thank you,

-Gary

Hi folks,

We are in the process of gathering information we would like to include in our next report. Since it will take time to analyze any data that you share with us, we are hoping to receive it soon.

What we need are the air data results, and the quality assurance document that accompanies them.

Also, Bobbi, can you please send us the QAPP for the POCIS sample results?
